STILL YOU ARE THERE

THE SUN HAS SET
THE DAY CAME TO AN END
BUT STILL YOU ARE THERE FOR ME
THE BIRDS HAVE FLOWN TO THEIR NEST
THE DAY CAME TO AN END
BUT STILL YOU ARE THERE FOR ME
THE SUN SUNK INTO THE OCEAN
THE DAY CAME TO AN END
BUT STILL YOU ARE THERE FOR ME
THE BRIGHT BLUE SKY IS DRAWN DOWN
THE DAY CAME TO AN END
BUT STILL YOU ARE THERE FOR ME
A HALF PART OF THE WORLD IS LIT BY THE STARS
THE DAY CAME TO AN END
BUT STILL YOU ARE THERE FOR ME
THE LAMP IN EVERY HOUSE IS LIT
THE DAY CAME TO AN END
BUT STILL YOU ARE THERE FOR ME
SAME WAY
ONE DAY
THE WORLD WILL COME TO AN END
YOU ARE THERE FOR ME 'OH LORD'

Principal's Message:

Have you ever wondered who you are? Where you have come from? And where are your roots?

Those are mind boggling questions. We need to realize that we have been placed here in this world by the mighty power of God. There is a purpose and a plan for each of us. This plan will unravel itself as we tread through the roads of life with God as our head and guide.

The word of God says that we are made in his image and that our body is the temple of God and that we are the fruit of His creation.

Each of us has a role to play and a goal to achieve and victories to be won. May be your past has not been very challenging or worth appreciating. Do not worry. You have the present and your future.

I happened to read an article in which the writer says that; if man keeps pondering and regretting about his past he can never move forward. Of course we learn a lot from our past. Let these pleasant or bitter lessons learnt help us to build a better future. The appearance of a caterpillar never suggests that one day it would be a beautiful butterfly. We need to crucify our past and resurrect into new future.

Not everyone who is remembered as a successful person started off beautifully from the beginning. It is his / her desire, determination, dedication and discipline that made them winners.

There is nothing equal to hard work .Our 10th and 12th standard pupils of the last academic year were able to come out with flying colours because of their hard work and the guidance of our dedicated teachers and above all by the grace of our Lord and Saviour Jesus Christ

Hence I wish to encourage every one of you to do your best in whatever you do and be diligent and honest in your ways and you will soon realize that success follows you instead of you chasing it.

May God Bless You.

WORLD ENVIRONMENT DAY

World Environment Day was celebrated on 20th June 2011. "Pollution free environment was the theme and the members of the science club presented a skit. They brought out the fact that science and technology have put our planet earth at risk and it is our duty to save it. In particular, they pointed out the damage caused by the emission from cell phone which will result in a world void of plants, bees, butterflies etc. They also listed out some ways to conserve energy such as.

1. Write on both sides of the paper, save trees from being cut down.
2. Save fuel, whenever you can walk or cycle.
3. Switch off the light and fan when not in use.
4. Do not waste food, eat everything on your plate.
5. Grow trees, save the globe, A seed today, shade tomorrow.

STUDENT EXCHANGE PROGRAMME

My Trip to (OZ) Australia

Australia

I consider myself blessed for having been given an opportunity to visit another continent, in a totally different hemisphere, all alone. It was quite an adventure. This trip wouldn't have been possible without my generous sponsors Gary Wallis, Lynn Wallis and their church. They invited me to attend the National Christian Youth Convention

(NCYC), a biennial event which took place on the first week of January, 2011.

I did carry some books with me because I did not want to spend 20 precious days carelessly. Although I should confess that studying under changed circumstances was not very easy.

I spent the first week of my stay in a tent. I know it may seem unusual but over there, holidaying in tents along the coast is a tradition. The beaches were extraordinarily beautiful and the people friendly. The weather unfortunately was not very pleasant. We had continual rain in spite of it being summer. I was being reassured by so many people that the weather was very strange and it was never that way.

There were several amusement parks along the Gold Coast and I had the privilege of visiting the Sea world which is one among the best amusement parks in Australia. I had an amazing time there watching the sea lions and the dolphins perform. I also saw a polar bear for the very time in real life. We went on a few exciting rides until it was time to head back to the tent.

On other days I used to visit huge shopping centers or dine at different restaurants. We played fun games during the evenings and it was good to see so many people treating me with care and affection. I also had the advantage of experiencing an Australian Christmas. It was a lot different from the usual Christmas I celebrate at home. The food there was very mild compared to Indian food. It was different, but good.

Before starting to NCYC, I was able to go to Mt. Coot –tha, a prominent landmark in Brisbane. A ride on the City Cat along the Brisbane River helped me tour the city. The next day I found myself at the Australia Zoo, home of The Crocodile Hunter, Steve Irwin. Feeding the kangaroos filled me with joy that knew no bounds. The Australian birds and animals were a fantastic sight to watch.

Just after the first week into the New Year, my memorable trip down under almost came to an end. I would like to express my gratitude to my principal Mrs. Shyamala Suresh for her support and encouragement.

TRIBUTE TO TEACHER

If your plan is for 1 year - Plant rice

If your plan is for 10 years - Plant trees

But if your plan is for 100 years - Educate Children, Said Confucius

Truly, teachers have such an influencing role in the life of us students. It is our teacher who paint our minds, to dream impossible dreams and guide our thoughts to make the impossible possible.

They inspire, mould, impart knowledge and in the process shape our future. They share our achievements and advice our fault. They give us acceptance, approval and appreciation. Above all Thank you, teachers for treating students as real people.

In my opinion – If housewives are called Homemakers.

Then teachers should be called

"Dream makers"

Teachers, sometimes you may feel powerless and small,

Overwhelmed and wonder what am I doing?

It may seem insignificant

But please remember it takes only one person, just one person

To make a difference in the lives of 40 students at a time

You may say – what power do I have in this Education System.

But in our eyes you are the system. And only what you say and do matters to each one of us.

One kind look from a teacher is enough for the student to know "Aal Isz Well" (All is Well) and that each one of us have a God given right to aim for the very top.

Today, I want to take this opportunity on behalf of all my schoolmates both present and past to say thank you for answering the call to become teachers.

Your contributions are immeasurable

Your lessons permanent

You make a difference to our world

And so we love you

When an architect builds with care

The structure may stand for centuries

When a teacher builds with love and Truth what she builds will last through "Eternity"

Thank you teachers and a very happy Teachers Day.
